**I was born:** Happy on 29<sup>th</sup> September

**My favourite structure (designed by someone else):** Zaha Hadid's Generali Towers & Modern Art Museum of Fort Worth by ANDO

**I am inspired by:** Kelly Hoppen, Japanese culture & beaches!

**Architecture to me is:** A frozen musical note which is ever evolving!

**I wish I had designed (and how would that have been different from now):** I feel all designers in their own means and ways are biggest contributors to the world's visual dynamics. Hence, there is nothing that I could have designed better; everything is best in its own beautiful way!

**My worst design:** I am my own critic! (sounds cliché) But truth is, I keep thinking this could have gone better here, that element there and so on.... In every project.

**My best design:** All designs are best efforts from my end. And I am waiting and looking for a more soul satiating project.

**My signature design element (one element without which no design of yours seems complete):** I love mirrors! Love how they play and transform complete dimensions of a space.

**To unwind I (hobbies other than architecture):** Act, dance, meditate & run Access Consciousness bars!

**If I was not an architect:** I don't know! I haven't seen myself other than a designer!

**Society Interiors to me is:** It's something I look forward to! There is always something so captivating, informative and new in every edition. This magazine has created a benchmark and exclusive niche for themselves and this standard is now a base from where we compare every parameter of other magazines of this industry!
